New duplex apartment in a fantastic location

In a picturesque location on the west coast is one of the most beautiful villages in Mallorca, whose surroundings count as a cultural landscape to the World Heritage under the protection of UNESCO. In this wonderful environment, a project is being created whose architecture, together with the landscape, forms a symbiosis between today's standard and traditional Mallorcan history. An elite object in which the inhabitants find themselves in a unique external environment.

Using best construction materials and state-of-the-art technology, this chic maisonette apartment, completed on 157 sqm, offers a total of 3 bedrooms, 3 bathrooms (two en suite) and a guest toilet.

On the ground floor, the open, fully equipped kitchen and the cozy living/dining room with direct access to the fabulous 82 sqm terrace offers a very successful flair of tradition and modernity.

On the first floor there are the three bedrooms, two with en suite bathroom and access to a 13 sqm balcony. The entrance to this unit is on the first floor.

The different floor plans range from 154 sqm to 280 sqm and the purchase prices vary between 950,000 € and 1,750,000 €. Each unit has underfloor heating, air conditioning and a parking space on the enclosed grounds or a private garage.

Talk to us, we would like to inform you in detail in a personal conversation about this extraordinary project.
