Nice apartment in sought after location in the south

In a community of 2004 and sought after location is this beautiful apartment. On 80 square meters of pure living space are distributed 2 bedrooms and a bathroom, plus a 15 square meter terrace.

A fully equipped, part-open kitchen offers all the amenities and direct access to the utility room.

The bright and cozy living/dining room with direct access to the 15 sqm large terrace in south/west orientation invites you to enjoyable evenings with a delicious drink.

In the closed, Mediterranean-style residential complex, a large communal pool ensures a refreshing cooling off on hot days. Shops as well as cozy cafes and restaurants are within walking distance.

Maioris Decima is a new settlement that was formed in the last years on the rocky south coast next to the Palma. Meanwhile there are shops, restaurants and everything you need for daily life in this residential area. Worth seeing is the coast with its abrupt rocks that partially fall into the sea. Also the road to the sea deserves attention. It leads to the water with narrow serpentines and on the way you can admire gorgeous views. These views serve already as highlights for many commercials.
