Finca with several warehouses on a spacious plot

This beautiful Village is located on a large area of 100,000 m² with very few neighbors and offers a lot of peace and tranquility throughout the day. Due to the idyllic location of the property, it is only 10 minutes from Campos, where we can find all the large supermarkets, 5 minutes from the most beautiful beach Es Trenc and just over 30 minutes from the airport and the city of Palma.

The house is divided into several areas; New building, the older building, then we have 3 industrial buildings with the possibility of remodeling it according to your needs, stable for horses, garage ... olive trees, etc.

In the new part we find a spacious living room, which gives a spacious and very bright feeling thanks to the large windows. Then we find the office, which has a pre-installation to install a kitchen if desired. Then we go into the kitchen and cross a veranda, which in turn is connected to the terrace and the pool, where you can feel the breeze and enjoy the weather. The charismatic kitchen in rustic and cozy Mallorcan style is equipped with almost everything you need, from a wood stove, stove, microwave ...

If we go up the stairs we will find a beautiful and spacious bedroom suite with a terrace, ideal for relaxing and enjoying the view of Cabrera. The spacious bathroom is equipped with a bathtub and shower.

The oldest house is divided into 4 rooms, ideal for inviting family or friends, two toilets and an alcove to conveniently store the essentials.

It's worth noting that the large pool has a corner that acts as a hot tub and powers the water to relax, a propellant that creates a jet of water and has a shallow section on one side of the pool so the little ones can swim safely. .

The entire property is protected thanks to the typical Mallorcan stone fence that runs through the entire property.
