Plot with good access

A rectangular plot with a beautiful view of the foothills and the San Salvador at Felanitx is for sale. Thanks to the paved driveway you have good accessibility and in a few minutes you are in the center of the nearby town and in the beautiful Son Macía ... a wonderful wine-growing region. Sandy beaches on the east coast of Mallorca are also easy to reach.

The quiet little town Felanitx is located in the southeast of the island Majorca. The name Felanitx has got Roman provenance and it is derived from -Fenalicius- = the place where they make hay. Definitely you should visit the church Sant Miquel that is situated in the middle of the town. Big stairs lead to the entrance porch. For all romanticists: under the stairs the fountain of holy Santa Margarida bubbles - the allegedly never-ending spring is regarded as a symbol of eternal love!
