Finca with rental license near the town of Lluçmajor

The finca is located in a quiet area in a cul-de-sac. The house captivates with its huge space, hardly a room has less than 40 m². The living space is divided into a huge kitchen, large living-dining room, six bedrooms each with a bathroom. The property is just too predestined for tourist rental, the rental license for it already exists.

The name of Lluçmajor is probably composed by the Latin words lucus maioris, which means "greater forest" with an important historic background. In terms of surface area, Lluçmajor is the largest municipal county on the island and it is located in the south. Part of El Arenal also belongs to the municipal county of Lluçmajor as well as the small village at the coast, S'Estanyol. The small location Cala Pi belongs to the municipal area, too. In Lluçmajor you can find all the facilities for daily life as supermarkets, shops, bars and restaurants, schools, etc. Three times per week there is a fruit and vegetable market in the centre.
